## **ABOUT WMO**

**WMO- World Mediation Organisation**, seated at Berlin, is a global platform of Mediators and Conflict Resolution Specialists. WMO promotes respectful intercultural and non-armed understanding by promoting a constructive dialogue within an area of mutual respect and non-escalated armed conflict. The cross-border and cross-cultural training of WMO does not intend to impose a western style of Mediation on another culture, but it deals with a sensible core or the point within the circle. This core emulsifies with the cultural background and language of the student and allows him or her to become a unique inner border professional. WMO developed online training course on the interdisciplinary topic of Mindful Mediation & Conflict Management in the English language. The training provides the flexibility and accessibility for students to study at their own pace. It considers international research results regarding the sustainable benefits of teaching Comprehensive Mediation. WMO training program places the focus on understanding conflicts, the various dispute resolution options and the attitude of the human individual. Its pedagogic setting includes self-reflection, thematic input, and putting the content to practice.
